Mail Stop - Petition  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**ATTN. Paul Shanoski, Senior Attorney, Office of Petitions**

**RENEWED PETITION PURSUANT TO 37 C.F.R. § 1.181(a)**

Dear Sir:

---

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service on the date shown below with sufficient postage as first class mail in an envelope addressed to: Mail Stop Amendment, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

  
Lorraine F. Kniffin

12/30/09  
Date

This is a Second Renewed Petition under 37 C.F.R. 1.181(a) to withdraw a holding of abandonment. In response to the petition filed on July 24, 2009, the Office asserted that the Petitioner's assertion of non-receipt was not adequately supported because the Petitioner did not provide a statement describing the system used for recording an Office communication received at the correspondence address of record with the USPTO and has not established that the docketing system is sufficiently reliable. The Petitioner filed a Renewed Petition to withdraw the holding of abandonment, in which the described the system used for recording an Office communication. In response to the Renewed Petition, the Office asserted that the record does not support a finding that the docketing system is sufficiently reliable. The Petitioner provides this information below in the Second Renewed Petition, which also incorporates the previously filed petition.

On June 11, 2009, applicant's attorney received a Notice of Abandonment in this case, which was mailed on June 8, 2009. A review of the USPTO's PAIR system on June 11, 2009 indicated that a Notice of Non-Compliant Amendment had been mailed on April 16, 2008. However, only the USPTO cover page and the second page containing a header reading "Notice of Non-Compliant Amendment" are currently available on the PAIR System. No "Continuation Sheet(s)" showing the details of non-compliance are available on the PAIR System. A search of our files indicated that we had never received the Notice of Non-Compliant Amendment of April 16, 2008.

The undersigned attorney spoke with Examiner Pesin on June 15, 2009, and informed him that the Notice of Non-Compliant Amendment of April 16, 2008 was never received by the undersigned. On June 16, 2009, we received a copy via facsimile of the Notice of Non-Compliant Amendment in its entirety from Examiner Boris Pesin.

An amendment responsive to the Notice of Non-Compliant Amendment of April 16, 2008 is enclosed.

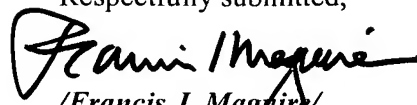

The Office states in the decision on the renewed petition issued on November 2, 2009, that the Petitioner has not shown that the docketing system is

sufficiently reliable, and requests that in this Renewed Petition the Petitioner should: a) indicate whether the electronic docketing system generates the above-mentioned printed dockets; b) indicate the frequency at which these printed dockets are generated; c) indicate whether these printed dockets are distributed to each practitioner for his/her review, and; d) provide a copy of the printed docket for the relevant practitioner during the relevant timeframe, to show that the notice of non-compliant amendment of April 16, 2008 does not appear.

If the notice of non-compliant amended were received in the mail, it would be entered in the electronic docketing system upon receipt. The docket entry will appear on the printed docket under the date a reply is due, or under a date which is one, two or three months before a reply is due as a reminder. The electronic docketing system generates the printed dockets, which are printed for distribution to each attorney for his review at the conclusion of each month, although they are capable of being printed at any time. If the notice of non-compliant amendment were received, it would have been included on the printed docket for Francis Maguire for the month of May and reviewed at that time. The Petitioner has provided a copy of the docket for Francis Maguire for the relevant time period. The reply would have been due on May 16, 2008, thus Petitioner has submitted the docket covering May 1, 2008 to June 4, 2008, to show that the file corresponding to this case, docket number 915-008.018, does not indicate any replies are due during the month. Had the notice been received in the mail, it would have appeared in this docket. The electronic docketing system therefore ensures that correspondence are recorded and provided to the attorney.

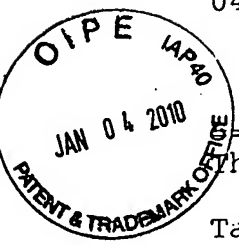

Therefore, in view of this information, and the information provided with the previous petitions, it is believed that the Notice of Non-Compliant Amendment was never received and it is requested that this Rule 181 petition be granted. In the unlikely event the Rule 181 petition cannot for good and sufficient reason be granted, it is requested in the alternative that this paper be considered a petition for revival of an application for patent abandoned unintentionally under 37 CFR 1.137(b) since the entire delay was unintentional. Our Deposit Account No. 23-0442 may in that event be used to pay any fee required under Rule 17(m).

Respectfully submitted,

  
/Francis J. Maguire/

Francis J. Maguire  
Attorney for the Applicant
